SOFTWARE ENGINEER – FRONTEND DEVELOPER

Frontend Developer with **2+ years of professional experience** building responsive, scalable, and user-focused web applications. Strong expertise in **Vue.js (Vue 2 and Vue 3)**, with hands-on experience in **React.js, Nuxt.js, and Next.js**. Skilled in translating Figma designs into pixel-accurate interfaces using **Tailwind CSS and modern UI frameworks**, integrating REST APIs, and developing reusable frontend components. Experienced with **TypeScript, Vuex, Redux Toolkit, TanStack Query, PostgreSQL, Prisma, and Firebase**. Currently focused on building high-quality frontend applications while expanding toward full-stack development.

TECHNICAL SKILLS

Languages	: JavaScript, TypeScript, HTML5, CSS3
Frameworks	: Vue.js (Vue 2 & Vue 3), React.js, Nuxt.js, Next.js
UI / Styling	: Tailwind CSS, Vuetify, Sass, Responsive Design, Figma
State / APIs	: Vuex, Redux Toolkit, REST APIs, Axios, Formik, Yup
Backend / DB	: Node.js, PostgreSQL, Prisma, Firebase, PHP
Tools / Other	: Git, GitHub, GitLab, VS Code, Vite, npm, pnpm, TipTap

EXPERIENCE

Associate Web Developer <i>CodeSync</i>	2024 – Present <i>Lahore, Punjab, Pakistan</i>
- Developed and maintained responsive web applications using Vue.js, JavaScript, TypeScript, Tailwind CSS, and Vuetify. - Built reusable and maintainable UI components while following modern frontend development practices and responsive design principles. - Converted Figma designs into responsive, pixel-accurate interfaces across desktop, tablet, and mobile screen sizes. - Integrated and consumed REST APIs using Axios and managed application state using Vuex. - Collaborated with backend developers to integrate APIs, troubleshoot issues, and deliver complete application features. - Used Git and GitLab for version control, branching, code collaboration, and development workflows.	
Web Developer Intern <i>Technixus</i>	3 Months <i>Faisalabad, Punjab, Pakistan</i>
- Developed responsive websites using HTML, CSS, Bootstrap, JavaScript, and WordPress. - Customized WordPress websites and implemented responsive layouts based on project requirements. - Worked with basic PHP and gained practical experience in web development and website customization. - Collaborated with senior developers to troubleshoot issues and improve website functionality and user experience.	

EDUCATION

Government College University Faisalabad <i>Bachelor of Science in Information Technology</i>	Faisalabad, Punjab, Pakistan <i>Sep 2019 – Aug 2023</i>
---	--

MedLynk*Next.js, React.js, TypeScript, Redux Toolkit*

- Developed a scalable, role-based healthcare discovery platform frontend using **Next.js, React, TypeScript, and Tailwind CSS** for admins, organizations, professionals, regulators, and public users.
- Built organization onboarding, approval workflows, content moderation, billing interfaces, and public discovery views with reusable, responsive UI components.
- Implemented authentication and form workflows using **Formik, Yup, Redux Toolkit, TanStack Query, and Axios**, including login, signup, verification, and password reset.
- Developed organization, product, post, and team management features with rich-text editing using **TipTap**.

Omegus Prime*Vue.js 3, TypeScript, Vuex, Tailwind CSS*

- Designed and developed a modern, responsive business website by translating the **Figma design into a fully functional frontend**.
- Built the application using **Vue 3, TypeScript, Vuex, and Tailwind CSS** with a clean and scalable code structure.
- Wrote detailed test cases and implemented unit testing to improve functionality, stability, and code reliability.
- Optimized the codebase for **SEO, responsive design, performance, and user experience** across desktop, tablet, and mobile devices.

International BodyTalk Association (IBA)*Vue.js 2, Vuetify, Vuex, REST APIs*

- Developed frontend features for a comprehensive association and membership platform using **Vue 2, Vuetify, Vuex, and Sass**.
- Implemented membership upgrades and downgrades, payments, coupon discounts, user-level permissions, and store product purchasing.
- Built features including blogs, forums, certificates, newsletters, seminar registrations, testimonials, user profiles, and multilingual support using Google Translate.
- Integrated frontend functionality for **ShipStation order creation** and worked on a separate admin panel with performance optimization.

CodeSyncs*React.js, Firebase, Tailwind CSS*

- Designed and developed a modern software company website from concept to deployment by converting the **Figma design into a pixel-perfect, fully responsive web application**.
- Implemented **Firebase backend integration** for dynamic data management and built admin authorization for managing application content.
- Developed dynamic **blog and job posting functionality** with Firebase data storage, enabling scalable content management.
- Built reusable components, responsive layouts, smooth navigation, and animations while focusing on **performance and user experience**.
